Will You Vote to Drive From Alexandria 1000 Men and Families, Lose $1,500,000 a Year, and Raise Your Taxes to Transfer the Liquor Business from Alexandria to Washington?

STUPENDOUS LOSS WILL BE SUSTAINED BY ALEXANDRIA IF STATE GOES DRY

Figures Gathered by the Gazette Show That the Loss Will Amount to Over a Million and a Half Dollars Per Annum Without Compensation.

1000 MEN WILL LOSE EMPLOYMENT.

Glass Factories Will be Compelled to Close. Brewery, With 230 Employees, Will Shut Doors. City's Finances Cannot Stand Loss of Revenue. Higher City and State Taxes Will Result.

This is not a paid adverti sement. It is not inspired by brewery, local option association, or saloon interest but is written because of the deepest conviction on the part of the management of the Gazette, that a serious crisis confronts Alexandria, a situation fraught with so much danger to the industrial life of the community that the interest of all its people are in the greatest jeopardy.

Before proceeding with the figures that the Gazette has secured, we wish to state that the fight that the men and women of Virginia are making for state wide prohibition has our most sincere sympathy. In many sections of Virginia they have arguments that must appeal to people who have the love of home and country in their hearts. To save the boys and girls of the state from becoming drunkards to cut out the enormous economic waste resulting from the excessive use of stimulants, and to put an end to the unlawful and improperly conducted saloon, are ideals which appeal to all that is good within us.

But here in Alexandria within a stone's throw of the national capital, where liquor is openly dispensed from more than 400 saloons and where 150 wholesale and shipping houses are ready at a moment's notice to take over the business which the prohibitionists are endeavouring to drive from the cities of Virginia, sentiment must be eliminated and the proposition considered from a practical standpoint

The Gazette has gone to considerable trouble to secure the following figures which it vouches for as a correct summary of the financial situation of the liquor interest of the city.

The First Effect—A loss of $250,000 per annum.

If Virginia should vote in favor of state-wide prohibition on next Tuesday the first effect would be the closing of the 44 places of business in Alexandria where liquor is sold. Many of the men engaged in this business know no other trade and when the doors of their establishments are shut they will be compelled to take their families to other places in an effort to secure employement.

The figures are as follows:

Number of Proprietors	59
Number of employees	164
Number of persons in proprietors' families	212
Number of persons in employees' families	407
Total number of persons	832
Annual wages paid to employees	$76,101
Cash spent for fuel, rent, light, telephone, etc.	53,485
Amount spent by propreitors for living expenses	88,500
Amount paid for licenses	37,710
Total	$255,796

According to the above figures it will be seen that 832 people who now secure their living out of the liquor business in Alexandria will be thrown out of employment and there will be a loss to the city of over $250,000 per annum.

It will be charged by prohibitionists that this sum will not be lost to Alexandria as the money now spent for intoxicants will be diverted to other channels and that merchants in other lines of business will be benefited. Such is not the case.

In the first place a large portion of this money comes from nearby places in Virginia whose people buy their liquors here. More than $500 worth of whiskey is shipped every day by the whole-salers of Alexandria to

RUSSIANS ATTACK AUSTRIAN CENTRE

Vienna Admits Czar's Troops Occupy Part of Przmysl Defenses

DENY AUSTRIAN ROUT.

Dispatches From London Express Satisfaction With Result of War In East Prussia.

Vienna (via Rome), Sept. 18.—The Russian armies, led by Generals Rouszky and Brusaloff, are today making a determined assault on the Austrian center, which holds the line from Jaroslay to Przemysl.

The chief points of attack are the five forts at Przemsyl, which command the San river. The Russians are admitted to have occupied part of the Przemysl defenses to the south of the town, but so far they have been unable to make any impression on the main defenses.

The Austrian armies are now united. The right wing, now commanded by General Boroevio, centers at Drohobyez, and holds the railway line from there to Chyrow, thus insuring an excellent line of retreat should it be too hard pressed by the Russian armies reported advancing from Stryj.

The left, commanded by General Dank, who now has the assistance of the Archduke Francis Frederick, maintains a position extending from the Vistula rives near the Russian frontier to the extreme left of General von Auffenberg's central army at Japoslaw.

The fighting continues everywhere with unabated ferocity, but the war office specifically denies that at any point have the Austrian forces been routed.

London, Sept. 18.—British military experts express the utmost satisfaction with the progress of the Russian operations thus far, but they point to the fact that East Prussia becomes now the center of interest. Concerning the state of affairs there the reports ae conflicting. On the one hand there is the statement that the Germans have concentrated 750,000 men in that quarter for an invasion of Poland, with Warsaw as the objective.

On the other hand the St. Petersbug correspondent of The Times insists that the Germans have realized the utter futility of the operations in East Prussia and have detached eight army corps from that theater to relieve the distressed armies in northern France.

TRAIN WRECKED THIS MORNING

Eighgteen Persons Kiled And Twenty-Five Seriously Injured.

Mobile, Ala., Sept. 18.—Eighteen persons were killed and twenty-five seriously injured in a wreck early today near Livingstone, Sumter county, Ala., on the line of the Alabama Great Southern Railway, according to reports received here.

The train was the fast New Orleans-New York northbound express. Rescue trains with doctors and nurses have been rushed from here and nearby cities. Early dispatches did not state the cause of the accident.

Positions Indicated.

Richmond, Sept. 18.—In answer to queries Congressman C. Bascom Slemp indicates that he will vote for State-wide prohibition, and Speaker Edwin P. Cox, of the House of Delegates, states that he will vote against it.

GERMAN AND FRENCH VERSIONS

Dispatches from Berlin Say Great Conflict is Now Raging.

FEROCIOUS BATTLE.

According to Paris Advices, Allies' Lines Holding Everywhere.—No Rest in the Fighting

Berlin (via The Hague), Sept. 18.—In an official statement issued by the German general staff this afternoon it was announced that while the great battle now raging in France is still undecided, there are evidences of German gains and indications that the French offensive is gradually losing its force.

The statement says: "The battle between the Oise and the Meuse continues at all points and is not yet decisive. There are indications that the enemy's resistance is beginning to decline. The French efforts to penetrate the German right, made with great bravery, have failed. The German center is slowly advancing, although encountering desperate resistance.

"The French allies from their fortified position at Verdun have been repulsed without much difficulty. The situation in its entirety, from the German viewpoint, is satisfactory."

Earlier in the day the following statement was given out:

"The battle in France along the new lines occupied by our foces rages with uninterrupted ferocity. The only advantage that has been gained by our forces during the last two days has been the repulse of several French attacks in force.

"We are, however, holding intact all of the important positons recently taken. The spirit of the army is excellent and the work of the German artillery, especially, is spreading havoc in the ranks of the enemy.

"In the east the German successes continue. We have driven the enemy back at every point, taking many prisoners and several guns. The Austrian forces, it is announced in Vienna, have now effected a junction at every point and are driving the enemy back from the Jaoslav-Przemysl district."

Unofficially it is stated that the French have been directing their attention to the army of the crown prince which, it is said, has suffered very heavy losses. However, it holds a position of enormous strength and has repulsed every attack.

The German artillery, it is explained, is causing enormous losses to the French, who have been unable to make any impression on the German positions at any point. The several attempts of the allies to envelop the German right wing have been repulsed with great loss.

Paris, Sept. 18.—"The battle continues: Our lines hold everywhere."

That was the comment at military headquarters today. It indicated that no change had taken place, and that the allied armies were still unable to make any serious impression on the new German defense line stretching almost across northern France.

With practically no rest the fighting goes on. It is stil raining hard, but despite that fact, there has been no let up in the action. The fighting is especially desperate on the left, where the joint armies of Generals Von Kluck and Von Buelow have been compelled to extend their extreme right in order to meet a flanking movement in force.

WASHINGTON IN TRAFALGAR SQUARE

Great Virginian, in Bronze, With Stand by Side of Nelson.

GOVERNOR NOTIFIED.

Location Opposite National Art Gallery, One of the Most Frequented Places in British Capital.

Richmond, Sept. 18—Houdon's famous bronze statue of George Washington in duplicate, is to be given a commanding position in Trafalgar Square, in the heart of London. The statute of the first president of the United States is to join the statuary company standing in the main artery of the world's metropolis in near proximity to the statutes of Lord Nelson and the Duke of Wellington, most cherished idols of the trug Briton.

Thus does the Kingdom of Great Britain and Ireland give flattering assurance of the full measure of appreciation with which the gift of the Commonwealth of Virginia to the mother country has been received.

First news of the choice of a position for the Washington statute was received here by British Vice-Consul A. P. Webner in a personal note from Sir Cecil Spring-Rice British Ambassador to the United States, at Washington. The vice-consul, acting upon the ambassador's request, made a formal call on Governor Stuart yesterday, advising the Executive of the vantage place accorded Virginia's gift and inviting the Governor's approval.

Governor Stuart expressed himself as highly gratified, saying he felt sure that the people of Virginia and the General Assembly that presented the friendship's offering would be keenly sensible of the most graceful compliment thus implied.

In his communication to Mr. Wilmer, Sir Cecil related that while he was in London recently he discussed the question of a suitable position for the Washington statute with Lionel Earle, Secretary of the Office of Works, and other officials. He was told that the site mentioned had been selected previously, it being contemplated to invite Virginia's approval before making a definite announcement.

The spot chosen, the ambassador explained, is immediately opposite the main entrance to the National Gallery. The figure will stand facing the square inside the railing which surrounds the building and sufficiently elevated on a base above them to afford an unobstructed view of the statue.

In selecting Trafalgar Square, he says, the authorities were guided by the consideration that it was not only a very beautiful site, and famous for its statue of Nelson, but is also one of the most frequented of London's public places. The ambassador enclosed with his note to Mr. Wilmer a drawing showing the exact position the statue will occupy in relation to the National Gallery. He suggests that Mr. Wilmer make a formal call on Governor Stuart and inquire of him whether the arrangements will meet with the approval of the Commonwealth.

Sir Cecil also desires to know as early as possible when the statue is to be sent to England in order that arrangements for receiving it with fitting ceremony may be made.

Governor Stuart has referred the matter to the commission which was delegated by the General Assembly to have the statue cast and present it in the name of the commonwealth of Virginia.

ADVOCATE NEW LAW.

Virginia Pharmaceutical Association Will Ask Legislature to Make College Diploma Prerequiste

Richmond Sept. 18—Changes in the rule governing the issuance of pharmacy licenses will be advocated before the next General Assembly by the Virginia Pharmaceutical Association, which, at the closing session of its thirty-third annual convention yesterday, adopted a resolution calling upon the Legislature to make a college diploma a prerequisite for each applicant. This stringent policy was outlined by the outgoing president in his annual address, and the association readily passed a resolution instructing its legislative committee to take up the matter of drafting a new law on the subject.

The druggists ended their annual meeting with a business session on the steamer Brandon, while on a pleasure trip down the James River. Beyond passing a few resolutions, and electing new officers and committees, the association accomplished little work, the larger part of the time being devoted to pleasure.

H. C. Littlejohn, of Leesburg, was elected president of the association to succeed C. D. Owens, of Wytheville, Other officers were elected as follows:

John Bauer, Richmond, first vice-president; T. Ramsay Taylor, Norfolk, second vice-president; E. L. Brandis, Richmond, secretary; H. C. Eley, Suffolk, treasurer; J. W. Barnett, Roanoke, local secretary; W. H. Lawson, South Boston member executive committee three years; H. J. Brady, Roanoke, member entertainment committee three years.

The association named John E. Jackson, Tazewell; H. E. Orchard, Lynchburg; C. D. Fox, Roanoke; W. T. Reeves, South Boston; and C. D. Owens, Wytheville, as candidate for a place on the Virginia State Board of Pharmacy. These nominations are required by statute, and from among the five named by the association, Governor Stuart will appoint one.

In addition to the officers elected the committees were named as follows:

Legislative committee—W. G. Williams, Charlotte Courthouse; T. A. Miller, Richmond; T. R. Taylor, Norfolk; C. H. Goldsboro, Culpeper, and G. T. Mankin, Falls Church.

Trustees National Home, Elmira, N. Y.—G. T. Mankin, Falls Church T. R. Taylor, Norfolk; R. H. Woolfolk, Richmond.

Wilson Encouraged.

Washington, Sept. 18.—President Wilson is "extremely hopeful" that real progress toward peace in Europe will result from informal sounding of Germany and the allies.

This was the situation today regarding peace and mediation overtures, according to a high authority. It is still too early to discuss terms, but by careful and slow discussions through both official and private sources, the President, it is said, has reason for hope that some definite peace overtures may be presented at an early date.

PRESSURE UPON ITALY.

Petrograd, Sept. 18.—All of the Russian newspaers today follow up yesterday's suggestions with emphatic demands that Italy join in the war on the side of the alllies. It is pointed out in plainly inspired articles that were Italy immediately to join in the conflict, such action would compel Austria to abandon Germany and sue for immediate peace.

NEW SUB DIVISION OPEN

Residences To Be Erected On Baggett Property On Upper King Street.

The initial sale of property in the subdivision recently developed, known as the Baggett property on upper King street, was consummated yesterday, by the purchase of a number of lots by Messrs. Frederick and William J. Schuler.

To these gentlemen belong the credit for largely developing the western section of the city by the erection of modern houses, and it is announced that it is their intention to continue this plan of improvement on the lots just purchased.

In accordance with plans previously adopted, work will be immediately commenced for the opening of Harvard street, which begins on the King street side of the tract and running entirely through the subdivision back to Oronoco street. The street is to be sixty feet wide with a roadway of twenty-seven feet from gutter to gutter. A tree space of six feet and concrete walk and parking ten and a half feet on each side.

The tract was surveyed and platted by Messrs. D. J. Howell and Son, engineers and a complete sewerage, water and lighting system is arranged for.

Graham and Ogden, real estate brokers of this city, the exclusive agents for the netire property, report that the prospects for an early and successful development are bright, as there have been numerous inquiriss regarding the section, and the development of this property is the natural result of an overflow from Alexandria City, where it is realized accommodations are limited, and it has become necessary to begin the erection of additional houses to supply the demand.

Graham and Ogden report, also, several pending sales of portions of this property and it will be only a matter of a short while before the entire section will be built up with houses and lawns that will tend to beautify the Northwest section of the City.

WEATHER CAUSES POOR GAS.

Superintendent Says Unseasonable Atmospheric Condiitons to Blame.

For the past two or three weeks weeks there has been a large number of complaints of poor gas by consumers in the city. In some sections people have not been able to use the gas for either lighting or cooking and have had to resort to lamps and candles for illuminating purposes. Several manufacturing plants that use gas in their business have been seriously inconvenienced.

Frank W. Latham, superintendent of gas, stated today that the cause of the trouble is the weather. The changeable weather of the past few weeks has caused an unusually large amount of napthalene to form in the pipes. This clogs them up and prevents the passage of the gas.

EIGHT MISS DEATH.

Swift Train Turns Automobile Around at a Crossing.

Wilmington, Del., Sept. 18.—William G. Tagart, and several members of his family had a narrow escape from being killed when the automobile in which they were riding was struck by a Royal Blue express train on the Baltimore & Ohio Railroad at the Lumbrook crossing. They were returning from Newark and, not noticing the approach of the train as they neared the crossing, Taggagrt started across. The front wheels of his machine were on the tracks when he saw the train bearing down upon him at a speed of 60 miles an hour.

Before he could back out of danger or cross the rails the locomotive struck the front of the automobile. The car was turned completely around and one wheel was knocked off, but the four women and three children in the car as well as Taggart escaped injury. After it turned the automobile stopped within a foot of the passing cars.

COUNTER SUITS.

Robert W. Burke of Staunton, And His Wife Appeal to the Courts.

Staunton, Va. Sept. 18—Staunton society is much interested in the divorce proceedings recently instituted in the Corporation Court here by Eleanor D. Burke against her husband, Robert W. Burke. Counter charges have just been filed by the husband, naming Harry Roler, a well known Staunton sporting man, as co-respondent, charging her with gross indiscretion.

In her suit Mrs. Burke charges her husband with indiscretions with a young woman at the Alleghany Inn at Goshen, during the past summer and with drunkenness.

The case came up yesterday, but went over until the next term of court.

Robert Burke was left a considerable fortune at the death of his grandfather, but he is now practically penniless.

His marriage to Eleanor Donaghe, a New Jersey girl, was the culmination of a pretty romance, but even after the birth of a son two years ago, his wife alleges he failed to give up his fast life.

Both have been popular in society here, and their marital troubles are creating quite a sensation. The husband is only twenty-six years of age and his wife is several years his junior.

KILLED AT CROSSING.

Hampton Man Thrown From Car And Mangled by Locomotive.

Hampton, Va., Sept. 18.—Samuel S. Lawson, one of the best known men in Hampton was instantly killed Wednesday afternoon by being struck by the east bound Chesapeake and Ohio train at what is known as Wright's crossing.

Mr. Lawson, in company with W. H. Mills, took a ride in the country in Mr. Lawson's light Ford machine, and when partly over the crossing the machine became stalled and the approaching train, which was almost up on the machine when the crossing was reached, struck the frail car, throwing Mr. Lawson out, just in front of the engine, which struck the unfortunate man, decapitating him and mangling the body.

SENTENCE COMMUTED.

Nottoway Negro Will Serve Life Imprisonment.

Richmond, Sept. 18—Algie Stokes, of Nottoway, escaped the hangman's noose when Governor Stuart yesterday ordered that the man's sentence be commuted to life imprisonment.

Stokes some years ago shot and killed another negro in Nottoway county and was brought to trial. The jury found him guilty and the verdict was death by hanging. That was prior to the enactment of the law requiring electrocutions in the State prison.

While in jail Stokes in some way managed to get his way out and departed between sunset and sunrise, leaving no trace of where he went. He was not found for some six or seven years after the crime, being located in Brunswick county, where he was at work and living peaceably and quietly and working hard.

Counsel for the man called on Governor Stuart and presented letters from the trial judge and from the prosecuting attorney, both of whom united in the request for commutation.

The man was to have gone to his death today in Nottoway county, but the action of the Governor means that Stokes will come to the prison and spend the remainder of his days in confinement. The man's previous bad reputation was a great factor against him at the time of the trial.

PREPARATIONS IN ITALY.

London, Sept. 18—In a dispatch from Paris the correspondent of the Daily Telegraph, says that the Italian reservists in the French capital have been called for September 28. They believe, the correspondent says, that this means Italy's entrance into the war.

Rome via Paris, Sept 18—The Giornale d'Italia quotes the Petrograd newspaper Birgewja Wiedomosty as saying that it reflects the view of the Russian government in declaring that Italy must take Trent and Trieste now, with its own arms, or never, for if the triple entente is victorious it is not probable that they will indemnify Italy by giving her those provinces as a reward for mere neutrality. Armed intervention by Italy, the Russian newspaper is quoted as saying would be most useful at the present moment to assist Russia in the campaign against both Austria and Germany.

Paris, Sept. 18—According to an article in the newspaper Avanti, of Milan, Italy, the military attache of Italy has quit Berlin because of insulting remarks concerning the attitude of Italy in the war made in the official salon. It is stated that the Italian attache vigorously resented the remarks.

Milan, Sept. 18—The Corriere Della Sera learns the preliminary steps are being taken toward an arrangement for peace between Austria-Hungary and Russia. It is asserted that Emperor Francis Joseph cherishes the hope that Great Britain will offer no serious opposition since, apart from the cordial traditional friendship that has marked Anglo-Austrian relations, there is strong ground for believing that England really desires the preservation of Austria-Hungary.

The motives constraining to such an initiative are to be found in the remarkable revulsion of public feeling in Vienna, where there are grave symptoms of popular revolt, and in other parts of the empire, particularly Bohemia.

LIEUTENANT GOVERNOR ELLYSON ON THE SALOON REVENUE.

I believe that the best interest of the Commonwealth will be promoted by the abolition of the saloon, and I shall therefor vote for State Wide Prohibition on September 22nd. I know that Virginians are a law abiding people, and I feel assured that in this state prohibition will prohibit. I am further of the opinion that prohibition of the sale of liquor will not result in an increase of tax an our farm lands, and I make the prophecy that the tax will be decreased before it is increased.

WAR ZONE ON VIRGINIA MAP.

The Richmond News-Leader of yesterday contained a map of Virginia designed to show comparative distances between important points in the war now in progress on the continent of Europe. Sedan is represented by Alexandria; Manassas, Signy; Charlottesville, St. Quentin; Staunton, Amiens; Lynchburg, Paris; Fredericksburg, Verdun; Richmond, Toul; Farmville, Epernay; Burkeville, Chalons; Yorktown, Nancy; Norfolk, Belfort; entrance to the mouth of the Potomac, Metz; Annapolis, Md., Luxemburg.

The German army is stretched from Charlottesville (St. Quentien) to Yorktown (Nancy). The allies are lined up in front of them and stretch from the same points.

TERRIBLE TOLL OF HUMAN LIFE.

An official casualty list published in Berlin yesterday shows 4,563 names. Three companies of the Fifty-ninth Infantry, stationed at Soldau, lost 356 men. The Forty-seventh Infantry, with headquarters at Posen, suffered 268 casualties. A majority of the One Hundred and Thirty-sixth Infantry, stationed at Strassburg, lost 346 men one company alone losing 7 officers and 114 men. A battalion of the One Hundred and Forty-second Infantry, of Baden-Baden, reported the loss of 10 officers and 249 men. Two battalions of the One Hundred and Forty-third Infantry stationed at Strassburg, lost 13 officers and 498 men.

The total of the published German casualties to date are 35,785 killed wounded or missing. Since last week the average daily losses are shown by the casualty lists to be 3,200.

The losses of the British army in the recent fighting amount to 15,000 dead and wounded."

PATRIOTISM OF THE IRISH.

The announcement made by John Redmond yesterday that Ireland would keep faith with Great Britain and bear her share in the present war was simply a confirmation of what was believed from the first. While the Emerald Isle has been battling for many years for home rule, the people of that country, when the great British Empire was about to be threatened, sidetracked their local issues and took their places as defenders of England.

When Emperor William was preparing to precipitate the present wholesale war he took it for granted that England was in no condition to fight, as her people were peace-loving and she was harrassed by a vexatious Irish issue, which was believed to end in revolution. The Kaiser's advisors, therefore, told their chief he had nothing to fear from that quarter.

How ridiculous such reasoning! Ireland had no intention of adding to the troubles of the mother country while it was about to battle for existence, but on the other hand, was prepared to help fight her battles.

The Kaiser seemed to have been at sea all around in setting his pegs. He was led to believe Russia could not afford to enter the fray, also that he would have the support of Italy. Many people of the latter country are now clamoring for war against Germany.

A REPUDIATED PROPHET.

Richmond P. Hobson, of Alabama, whose prohibition ideas were repudiated in his native State a short while ago, is scheduled to deliver a speech on his favorite hobby in the Opera House in Alexandria on next Sunday afternoon. Mr. Hobson has appeared in Alexandria before, and on his former visit four years ago he spoke in the M. E. Church South. On that occasion he stated that the United States and Japan would cross swords in a short time, and attempted to impress his hearers with the importance of rush orders by the War and Navy Departments. Subsequent facts proved conclusively that he was not behind the scenes and at present the best feeling prevails between Uncle Sam and the Mikado. In this connection it may be stated that at a diplomatic gathering in Tokyo yesterday prominent officials of Japan suggested that the time had come when a coalition should be formed between the United States and the island kingdom. Mr. Hobson will doubtless paint glowing pictures of a dry Virginia in the near future. There is an old Roman proverb, from one specimen judge the remainder, which may be applicable in his case.

It should be apparent to every one that Virginia should be allowed to govern herself, and when certain people from Ohio, North Carolina, Alabama and elsewhere attempt to dictate to those native and to the manner born there is naturally more or less protest.

The people of Mr. Hobson's own heath refused to adopt his principles of political economy, and he will come to us a prophet rejected by his country engaged in transplanting exotics which have withered elsewhere. He was retired from public life by overwhelming majority, when he endeavored to defeat Underwood for the Senate.

The people of the Old Dominion have from colonial days been jealous of all persons who have attempted to force their ideas upon them. They fought George the Third when the British crown attempted govern them in contrary to their own wishes, and their ideas of state sovereignty brought them to the front in 1861 when by the change of the administration their liberties were again endangered.

She claims the right at the present time of making laws of her own choosing, and will ever resent attempts of outsiders to foist their notions upon her.

AUSTRIA NEEDS EVERY MAN.

Soon to Call All Reservists And Emperor Mourns Necessity.

Rome, Sept. 18.—Dispatches from Vienna say the Neue Frie Presse announce the approaching call of all reservists en masse.

According to the Reichpost, Emperor Francis Joseph said to the Archduke Charles Francis, when the latter was leaving to take his place in the army.

"Never in my life has anything cost me so much pain as the duty of taking such a grave decision."

Roosevelt Begins Tour.

New York, Sept. 18.—Theodore Roosevelt is on his way for a speech-making tour in behalf of Progressive tickets in the Middle West. He will make his first address in Wichita, Kan., tomorrow. He will speak in Kansas City and Lincoln, Neb., and proceed thence through Iowa, Indiana, Ohio, and Michigan. Returning to New York early in October, he will later speak in Pennsylvania.

Frank LeR. Jackson, Defendant.

IN CHANCERY.

Upon written application of the Complainant stating specifically the last known place of abode of the defendant, and it appearing to the Court that process has been issued and returned by the Sergeant of the City of Alexandria, Virginia, showing that the defendant was not found within the Jurisdiction of this Court, the Court, on the 14th day of September, 1914, doth grant the following order of publication.

The object of this suit is to obtain a decree absolutely divorcing the complainant, Mary P. Jackson, from the defendant, Frank LeR. Jackson, on the grounds of desertion on the part of the defendant for a period of more than three years and for general relief, and an affidavit having been made and filed that the defendant Frank LeR. Jackson is a non-resident of the State of Virginia, it is ordered that he do appear within fifteen days after due publication of said order of publication and do what is necessary to protect his interest in this suit.

And it is further ordered that a copy of said order of publication be published once a week for four successive weeks in the Alexandria Gazette, a newspaper published in the City of Alexandria, Virginia; that a copy be posted at the front door of the Court House of the Circuit Court of said City on or before the next succeeding rule day after this order is entered and that a copy of said order of publication shall be sent by registered mail by the Clerk of this Court addressed to the said non-resident defendant at Philadelphia, Pa., his last known place of abode.

points reached by the railway and steamship lines from this city. If you will take the trouble to go to the Union station any afternoon you will see truck after truck loaded with wet goods going from Alexandria to points along the lines of the Washington Southern and Southern Railways. Closing the shipping houses here will simply mean the transfer of the shipping business to Washington or Baltimore.

In the second place a large part of the revenues of Alexandria saloons is received from commercial men, tourists who come to visit the historical places of interest and residents from near by counties. The latter, who now buy their groceries, meats and dry goods here will transfer their business to Washington.

But even if all of the money spent in the saloons came from the pockets of Alexandrians, with the saloons closed here and open in Washington, six miles away, the conclusion will be reached by every impartial person that Washington saloons will gather in the dollars of the thirsty Alexandrians.

The second Effect—Closing of the Brewery.

The second effect of state-wide prohibition will mean the closing of Alexandria's biggest manufacturing plant -the Robert Portner Brewing Co. This concern employes more than 200 persons and gives work to hundred of other Alexandrians notably to men in the glass, printing, painting and machine industries.

Within the last five years the Robert Portner Brewing Company have disbursed over a mllion dollars to the brewery employees in this city and to the business interest of Alexandria, as shown by the following statement from the management.

Payroll	$466,669.10
Freights	267,457.74
Bottles	123,125.62
Coal and Lumber	95,714.59
Repairs	26,794.04
Supplies	24,249.36
Taxes and Licenses	17,957.86
Insurance	9,245.77
Total	$1,031,214.08

Ouside of Alexandria the sum of $324,728.75 in wages was disbursed to employees of the Portner agencies in other cities in Virginia, and $24,820.92 was paid in taxes and licenses to the said cities. The company has an average of two hundred and thirty employees.

Prohibition in Virginia would mean the closing of the brewery plant within the year 1915. The law would become effective November 1916 but economic conditions would not permit operations for the full period.

The amendment permitting Virginia brewers to manufacture and dispose of their product outside of Virginia is of no practical value, as the field in the other states is occupied by the manufacturers of said states, and the Virginia manufacturers' could not secure enough outside business in a year to pay operating expenses for a week.

The Third Effect-Closing of Glass Factories.

The third and perhaps the most serious of all the evil effects of prohibition will follow the closing of the glass factories of the city. As has already been published by the Gazette two factories, the Belle Pre and the Virginia, did not open this year on account of the possibility of the passage of the state-wide act. Both of these plants were largely given up to the manufacture of beer bottles and whiskey flasks and their shut down is already seriously felt by business men of Alexandria.

The largest glass factory in Alexandria is the Old Dominion Glass Co. and it is very frankly stated by the management of this concern that they could not continue in business if Virginia should go dry. Their loss would amount to $225,000 per dollars per annum. The following table shows their disbursements in Alexandria last year.

Paid in wages	$176,628.48
Purchases in Alexandria outside of wages	37,563.75
Total number of employees	323

We have not been able to secure data from the other glass factories but it is safe to assume that their combined expenditures and the number of their employees will equal those of the Old Dominion.

Fourth Effect—Higher Taxation.

The fourth effect of state wide prohibition will be felt by the city government, and will result in a complete stop to the developement of the city, while the taxes will be increased. According to a statement prepared by E. F. Price, city auditor, and presented to the finance committee of city council on September 1st the total deficit of the city of Alexandria, outside of its bonded indebtness of nearly $800,000, is over $120,000. This covers appropriations already made in addition to the regular appropriations for year ending next May. This deficit must be covered by temporary loans which will be borrowed from the banks and which must be repaid within the next few years. If in addition the city is to lose the revenue of $12,000 per annum from liquor licenses the deficit must be made up by increased tax on all classes of property. Certainly the closing of the saloons will not cause any reduction in the running expenses of the city. There will be needed just as many policemen as at present, the jail and poor house will continue with the same expense account, the salaries of the judges, court and city officials will go on just the same. There can be no let up on the schools and the fire department and street cleaning service will require just as many dollars to operate under prohibition as under local option.

How will the $12,000 loss be met? Increased taxation is the only answer.

We have not refered to the loss of the licenses paid to the state. More than $25,000 per annum is paid by liquor dealers in Alexandria to the state and a large portion of this comes back to the city in the salaries of officials and for the school fund. According to those who are familiar with the situation a raise in the state tax rates must follow the loss of revenue from the liquor licenses

But the loss in the license receipts by the city of Alexandria will be exceeded by the loss in taxable values. There are 44 stores in Alexandria where liquor is sold. When they are no longer available for saloon purposes their value will show a large decrease. They will be on the market at almost any price and a fall of real estate values in all sections of the city will follow. What this loss will be cannot be estimated but will run into very large figures.

In view of these figures will you vote to cause Alexandria this enormous financial loss, drive from our midst more than 100 working men and their families, forming a great army of more than 4000 people, one fourth of our population, increase our taxes rates and bring ruin to thousands for the sole purpose of transferring our liquor business from the saloons of Alexandria to the saloons of Washington?

RAILROAD ACCIDENT.

Nine Persons Killed And Fifteen Injured Last Night.

Memphis, Tenn., Sept. 18.—Nine persons are known to have been killed and more than fifteen injured early last night, when an Illinois Central freight train crashed into a street car containing about 35 passengers, near Binghampton, a suburb of Memphis.

The wrecked car, a trailer, was hurled over an embankment, and the foremost freight cars toppled over on it. The motorcar drawing the trailer cleared the railway tracks ahead of the engine. None of its passengers was injured.

Recovery of the bodies of the victims from the tangled heap of wreckage was atended by great difficulty, but two hours after the tragedy nine dead had been found and fifteen injured taken to hospitals.

According to an eyewitness the accident occurred at a time when two freight trains were switching over the street railway crossing. The street car conductor, it is said, gave his motorman the signal to go ahead after the first train passed, and the car and its trailer were passing the cross-over when struck by the second train coming from the opposite direction.

The conductor and a few passengers on the trailer saw the onrushing train in time to jump. Several other passengers who remained in their seats were carried nearly 200 feet on the locomotive fender before being thrown into a ditch.

COUNTER REVOLUTION.

Former Officials Plotting Against Carranza Government.

El Paso, Tex., Sept. 18.—Reports of a counter revolutionary plot in Mexico were received last night by constitutionalists agents here. It was reported from various points on the Eastern border that former officials of the Huerta government, combined with the old Cientifico party, were plotingly against the Carranza central government.

According to reports to Carranza officials here, the ploters had begun operations at New Orleans and San Antonio.

At the latter place, it was said, they had sought to draw $10,000 which had been banked before the collapse of the Huerta government. The constitutionalist agents at San Antonio reported that they had tried to enjoin these funds.

From the California border came reports that persons representing themselves as agents of Jose Maria Maytorena, the insurgent governor of Sonora, and Felipe Angeles, in command of General Villa's artillery, have obtained the surrender of Tia Juana, opposite San Diego, Cal.

Reports reached the local consulate of extensive armament of both the Carranza and Villa troops since the lifting of the embargo by the Washington government. It was reported from Galveston that a large shipment of arms and ammunition has been sent to Mexico City by way of Tampico. A consignment of 6,000 rifles was reported on the way here to be transmitted to Villa's headquarters at Chihuahua City.

TOBACCO NEXT TARGET.

"First Shot of a Protracted Battle Has Been Fired."

The Presbyterian Standard, published at Charlotte, N. C., in its issue of August 26 says:

"That was rather a mild and harmless resolve of our last Assembly on the subject of tobacco, merely discouraging the use of it by church officials and leading church workers. If the matter would only stop here, little inconvenience would be experienced. In the face of this discouragement, users of the weed would manage to gratify their perverted taste. But probably this is but the starting point for a goal that looms in the distance. After a few more resolves of a discouraging nature, the language growing in severity, there will come a minority resolve, and this will be followed ultimately by a Prohibitory Resolve. We have the example of other churches. One church in the Presbyterian family of churches refuses all aid to candidates for the ministry who are addicted to the use of tobacco in any form; and the same church only lacked a small margin of votes of enacting a law forbidding the licensing or ordaining to the ministry of any one addicted to the use of tobacco. The sentiment will have to grow only a little stronger and this law will be enacted. Other churches are approaching the same position. Ours is started in that direction.

"It is hard for us who live where the plant is grown, where the money which it brings when marketed is the chief dependence for large sections, where it is manufactured in large quantities, furnishing work for thousands of hands, where it is the means of enrichment to multitudes of our best Christian people it is hard for us in such circumstances to conceive of the view taken of the subject in some other parts of our country. We are amazed at the strength of the indictment which is sometimes brought against it.

"It is growingly manifest that just as soon as the prohibitionists get through with the adjectives which are now being used in the fight against whiskey, these same adjectives will be made to do service against tobacco. Our church is not done with the subject, rather the first shot of a protracted battle has been fired."

FLOOD IN IOWA.

Families in Lowlands Driven From Homes After Rain.

Des Moines, Iowa, Sept. 18.—Lowlands were inundated, driving dozens of families from their homes Wednesday by a rainfall of 4.87 inches, the second heaviest in the history of the weather bureau here. In little more than an hour three inches of rain fell and some residents of the flats were compelled to wade waist deep to higher ground, carrying children.

Nine inches of rain has fallen in Des Moines in five days.

NEW BLOW TO ENEMIES.

London, Sept. 18.—The London Stock Exchange committee announces that it shortly will fix a date after which American stocks, in the name of alien enemies, will cease to be good for delivery.

The members of the Exchange holding such certificates are advised to take steps for their registration.

NEWS OF THE DAY

One more name was added yesterday in Baltimore to the list of those dead from eating toadstools in mistake for mushooms and two other persons were stricken and are now at the Maryland General Hospital.

The killing of one prisoner by another in the dining room of the penitentiary at Joliet, Ill., yesterday formed a tragic interruption to the noonday meal, Frank Repetto, seizing a carving knife from the table, plunged it into the heart of Charley McMasters, who died instantly. The men were sentenced from Cook county, Repetto, in 1910 for larceny, and McMasters in 1913 for burglary. At first they were close friends, but recently they quarreled.

Richard T. Williams, aged 33 years, son of Walter B. Williams, and manager of the firm of Walter B. Williams & Co., auctioneers, 408 Tenth street northwest, Washington, was killed in an automobile accident last midnight on the Baltimore boulevard 3 miles south of Elk Ridge, Md. At the time of the accident the machine was running probably 25 miles an hour, when the tire of the right front wheel collapsed, throwing the full weight of the machne and its load on the left wheel, which collapsed and threw the machine over, tossing its occupants out in the road.

That the Germans at Molines fired on their own men and annihilated a regiment of Prussians is asserted in a Reuter dispatch from Troyon, which says that a German officer admitted that in the night fighting at Malines the German artillery fired on Germans, mistaking them for French troops. Near a frontier village two battalions of the Twenty Eighth regiment mistook each other for Frenchmen and shot each other down to the last man.

A Fournier News Agency dispatch from Munich quotes the Nueste Nachrichter as saying that Germany had empowered the United States to intervene with the Belgian governmnt for the purpose of suggesting an armistice. The message attempted to give the proposed conditions, but they were rendered unintelligible by the censor.

It is reported in Tokyo that the German cruiser Emden has sunk five British steamers off the coast of India. The passengers of the vessels are said to have been saved.

News of a disaster to the German fleet in the Baltic, already reported abroad, is confirmed by information received at Petrograd. But there appears to be no doubt whatever that the German warships fired on each other, and that all rumors of an engagement with a Russian fleet in the Baltic are untrue. A fairly numerous flotilla, attended by cruisers, while engaged in hunting down passenger steamships, mistook some of their own for the enemy's ships and engaged in a lively battle. The number of vessels crippled is unknown, but it is said that several cruisers and destroyers entered Kiel badly mauled and riddled by shot and shell, and that many wounded were conveyed ashore.

Among 2,000 captured Austrians at the battle of Tomaszow, Russian Poland, there was not a single officer. telegraphing from Petrograd, a remarkable explanation of the demoralization of the Austrian army. There have been many previous accounts of the Slav and Szech soldiers of Austria being driven into battle by their officers with revolvers ready to shoot them. The decination of their officers reported at Tomaszow if true, indicates what a terrible revenge has come to the common soldiers.

The British Admiralty announces that the training ship Fisgard II, formerly the battleship Erebus, foundered during a gale in the English Channel and that 21 members of her crew were drowned. Boy artificers were trained on the vessel. The Fisguard foundered off Portland as she was being towed by tugs through a heavy sea. Forty-four of the crew were rescued by the tugs.

Four boys, part of a group of seven who escaped from the reform school at Booneville, Mo., took possession of a powerful engine in the yards of the Missouri, Kansas and Texas Railroad Wednesday night. Though pursued by detectives on another engine, the boys ran the locomotive beyond Pilot Grove, 35 miles south of Sedalia, where they abandoned it. A message to derail the engine reached Pilot Grove too late to stop the runaways. Three of the seven were captured, but the four locomotive riders are still in freedom.

Confederate Veterans and sons of veterans, the State of Virginia presents to you today a call to arms. The enemy in the guise of State-Wide Prohibition, self-styled as a "moral issue" has laid seige to sanity of the State and is seeking to throttle the Commonwealth's prosperity with an unwise law.

These are troublous times. Mighty nations are at war and world's commercial fabric is torn. The South's mighty money crops—cotton and tobacco—will be marketed with difficulty and only a sane conservatism will preserve the millions dependent upon them from embarrassment.

Virginia, as the Gateway of the South, will be the first to feel the blight if the South suffers. From President Wilson down, the nation leaders are daily counseling extreme caution. Business and trade conditions are not to be disturbed. A disarrangement of the industrial fabric at this time would be far-reaching and grave in its effects. Of all times this is no time for experiments.

In two weeks the citizens of the State will be called upon to go to the polls and register their will on the question of State-Wide Prohibition. A horde of hired orators and reckless reformers have travelled the length and breadth of the State preaching a gospel of destruction and deluding voters into the belief that State-Wide Prohibition is a panacea for intemperance and a cure for the abuse of liquor.

Virginia needs the help of every loyal son in this fight against the State-Wide heresy. It calls particularly upon the veterans who gave their young strength to the Commonwealth in the sixties to oppose with their ballots on September 22d, a legislative enactment fraught with much danger.

This is not a fight for or against the saloon. The saloon is not the issue. A vote against State-Wide Prohibition does not mean a vote for the saloon, as the hired agitators of prohibition would have the state believe. A vote against State-Wide Prohibition means a vote for local option, for home rule, for Local self-government—principles which form the web and woof of Virginia's constitutional ideals.

Local option gives every self-governing community the right to declare and enforce LOCAL PROHIBITION—the only kind of prohibition that prohibits. It is the law that is written in our statute books today. It has stood the test of time and proved its worth. Vote against State-Wide Prohibition and preserve it.

VIRGINIA ASSOCIATION FOR LOCAL SELF-GOVERNMENT

GERMANY NON-COMMITTAL.

Suggests That United States Get Peace Proposals From the Allies.

New York Sept. 18.—Count von Bernstorff, the German Ambassador, does not look for an early end of the war as a result of the proposals of peace that are said to have been made in various quarters. Replying to several newspaper men at the Ritz Carlton yesterday who asked him regarding the present status of the peace movement, the Ambassador replied:

"The movement is still going on, but you can rest assured that the war will go on for some time to come."

Count von Berstorff said he did not want to be understood as making any official announcement regarding the peace negotiations, as he was not a party to such, if any had been entered into. His references to the peace movement, he explained, were to the general expressions regarding peace.

"Everybody I meet," he said, "talks peace to me, but as to any official action having been taken I know nothing of it."

The Ambassador denied the rumors that his government had made any reply to peace proposals through the embassy.

The following is said to be the Kaiser's attitude:

1. Germany would be glad to listen to meditation suggestions, but is absolutely prohibited by the attitude of England.

2. Germany will not stop fighting so long as England declares this must be a war to a finish.

3. Germany can take up the question of mediation and peace only when the allies are willing to assume a like attitude of conciliation and consideration.

4. If this is to be a war to the finish, as England declares daily, then Germany will fight on. If the allies are determined to crush and dismember her, then she will fight to the last man.

5. If the world at large hopes for disarmament, then the crushing of Germany is the poorest way to accomplish it. Crushed, Germany will repeat the era after the Napoleonic wars and arm every man and child in the empire for the day of revenge.

6. Germany is willing to call the war a draw. Such a solution, she maintains, would be most conducive to future peace in Europe and to disarmament. Complete victory on either side would not lead to stable conditions.

CITY TO TAKE THE MAINS.

City Council Will Purchase Same From the Rosemont Development Company.

In the near future the committees on finance and light of the City Council will investigate the receipts and expenditures in connection with the gas mains in Rosemont, and should it be shown that a net profit of six per centum upon the outcome is being realized, the city will, according to the contract, take over the mains, paying the Rosemont Development Company, which laid them, the sum of $6,000.

Pipes were first placed in a portion of Rosemont in 1908, and later, when houses began to multiply in that suburb, others were lain in order to meet the demand for gas, until at present the mains practically extend over the place.

EUROPE FACING FAMINE.

Soon Dependent on United States, Says Judge Stockbridge.

That the whole of war stricken Europe will soon be dependent on the United States for food, at least a good part of it, was a statement made in Baltimore yesterday by Judge Henry Stockbridge, president of the local Red Cross Society.

"The tremendous crops are going to waste, unharvested, and the "cry for food will soon reach our ears," he said. "Just at present, however, we have all that we can do to provide medical supplies and even if an attempt were made to send food or clothing, the vigilance of the countries at war is so great and their suspicion aroused to such an extent that it would be difficult to send such things directly.

"Appeals have come, and are still coming to the American Red Cross Society from France, Belgium, Germany and Servia for medical supplies, including anesthetics and bandages. Already many gallons of chloroform and ether and thousands of pounds of bandages and absorbent cotton are on their way to the battle fields."

Every cent of money used for buying the proper surgical and medical essentials is received by contributions only.

FALLS FROM HIGH WINDOW.

Girl Companion Held After Man's Long Plunge.

Philadelphia, Sept. 18.—Falling from the window of his room on the third floor of a lodging house, at No. 516 North Seventh Street, Charles Rich, 35 years old, received a fractured skull yesterday and is dying in the Hahnemann Hospital. May Allen, 22 years old, who was in the room at the time, was arrested, and later held without bail pending a further investigation into the cause of the man's fall.

Rich and the Allen woman, according to her version, had been drinking all night and both fell asleep. Rich awakened and dazed by the liquor, walked toward the window instead of the door. When he struck the window ledge Rich lost his balance and plunged to the pavement.

ARMLESS WOMAN DIVORCED

Mrs. Gerardi Signs Bill of Complaint With Feet.

New York, Sept. 18.—Justice Benedict in Brooklyn has granted an interlocutory decree of divorce to Mrs. Mary Gerardi, an armless woman, who is connected with an attraction at Coney Island.

She was married on July 20 last, when the bride gained fame as being the first woman to sign a marriage certificate with her feet.

In her petition for divorce she alleged misconduct on the part of her husband with an unknown blonde in New York on August 14, less than a month after her wedding day.

Mrs. Geradi signed the bill of complaint in the action, which was undefended, with her feet.

CORNS QUIT, PAINS STOP, WITH "GETS-IT."

Quit Plasters, Salves and What-Not

After using "Gets-It" once you will never again have occasion for asking, "What can I do to get rid of my corns," "Gets-It" is the first sure, certain corn-ender ever known.

If you have tried other things by the score and will now try "GETS-IT" you will realize this glorious fact.

You probably are tired stickling on tape that won't stay stuck, plasters that shift themselves right onto your corn, contraptions that make a bundle of your toe and press right down on the corn. Put two drops of "GETS-IT" on that corn in two seconds. The corn is then doomed as sure as night follows day. The corn shrivels. There's no pain, no fuss. If you think this sounds too good to be true try it tonight on any corn, callus, wart or bunion.

Does YOUR Roof Leak?

We can tell you how to stop it—not merely for the present, but *permanently.*

Look at the 6-inch, asphalt-cement-welded joint, shown at the left.

You can have a continuous one-piece roof without a nail-hole in it.

No leaks No painting
No nail-holes No worry
No repairs No COAL-TAR
